# DALGIÇ<sup>®</sup> RAPTIYE

For more than 15 years Dalgıç Raptiye has been serving in a line that instils quality and trust with industrial connection equipment used in conveyor, crushing, screening, and crusher machine systems by improving and expanding its quality and product variety with each passing year.

Within its products, produced based on superior quality and continuity of quality, a perfect service understanding principle, which has high precision standards such as clip, Hinged Fastener, Bucket Fastener, Belt Lacing, Oval Jackson Fastener, U-J Bolt, Belt Fastener, Stretching Bolt, Dalgıç Raptiye provides solutions, in accordance to the customers' demands with a constant and honest service of understanding and satisfaction as principles before and after-sales.

Our brand which serves as the leader of the market in industries such as aggregate production, conveyor band systems which are situated in sectors such as mine and mill, mining jaw crushers, crushing and screening, provides product stock and supply. It continues its activities with the principles of meeting every need of customers, including customers in the dynamics by keeping them at the centre during the process and creating a stable and trust-based profile.

## FASTENER PRODUCT GROUP

|          |         |                     |
|----------|---------|---------------------|
| DRP-001  | 250 PCS | 1,5" Belt Fastener  |
| DRP-002  | 250 PCS | 2" Belt Fastener    |
| DRP-003  | 100 PCS | 2,5" Belt Fastener  |
| DK50*50  | 5 SET   | Hinged Fastener Set |
| DK50*60  | 5 SET   | Hinged Fastener Set |
| DK50*65  | 5 SET   | Hinged Fastener Set |
| DK50*80  | 5 SET   | Hinged Fastener Set |
| DK50*100 | 5 SET   | Hinged Fastener Set |
| DK50*120 | 5 SET   | Hinged Fastener Set |

## ASSEMBLY WRENCH PRODUCT GROUP

|         |                                    |
|---------|------------------------------------|
| DMA-033 | 1,5" Belt Fastener Wrench          |
| DMA-034 | 2" Belt Fastener Wrench            |
| DMA-035 | 1,5-2" Belt Fastener Power Wrench  |
| DMA-036 | 2,5" Belt Fastener Power Wrench    |
| DMA-037 | 1,5-2" Belt Fastener Mounting Clip |
| DMA-038 | Belt Punch                         |

## BELT LACING PRODUCT GROUP

|         |       |                     |
|---------|-------|---------------------|
| DSK-004 | 5 SET | 01 Belt Lacing      |

|         |   |  |
|---------|---|--|
| DYM-040 |  200 PCS | M10 Slotted Round Nut (Yellow Passivation) |
| DYM-041 |  500 PCS | M8 Slotted Round Nut (Yellow Passivation)  |

## HINGED FASTENER

Hinged fasteners pass over the drums and take their shape while the conveyor system is in motion. It prevents the stretching of rubber bands, which is already a flexible material, and prevents them from breaking and ensures that the system continues to work as it should.

## BELT LACING

Belt Lacing fasteners, which are a relatively economical, sub-class of systems containing drums in areas such as agriculture and food, production, conveyor and transfer, packaging, create tension in one-piece bands and eliminate loosening.

## SIEVE ASSEMBLY EQUIPMENT

In chemical, food, underwater, yacht, ship industries, fire extinguishing lines, leather and machinery industry, construction industry, U Bolt bolts used for fixing pipelines to walls and mounting pipes to channels and J bolts used for tensioning sieve wires and mines; Stretching bolts for fixing the sieve in sand, gravel, coal mines, other crushing and screening plants are the main assembly equipment of these industries.

## BELT FASTENERS

Belt fasteners developed to carry heavy products and difficult materials have a superior holding power. The compression of the lower and upper plates and the combination of durable bolts provide faster action compared to vulcanization.
